multiple disciplines by providing a platform for unified change for DB2 DBAs, security and compliance administrators, and managers of networks, systems and storage. It re-invigorates the customer experience by delivering a visionary, disciplined-based

CA Chorus for Security and Compliance - CA Technologies

Two modes of security control access to the DB2® database system data and functions. Access to the DB2 database system is managed by facilities that reside outside the DB2 database system (authentication), whereas access within the DB2 database system is managed by the database manager (authorization).
