### **Statement of International Cataloguing Principles - 2009**

In library and information science, cataloging (or cataloguing) is the process of creating metadata representing information resources, such as books, sound recordings, moving images, etc. Cataloging provides information such as creator names, titles, and subject terms that describe resources, typically through the creation of bibliographic records

### **Cataloging - Wikipedia**

There are two types of exhibition catalogue (or exhibition catalog): a printed list of exhibits at an art exhibition; and a directory of exhibitors at a trade fair or business-to-business event.
